Front-End Development Internship | Junior Front-End Developer

Front-End | UX/UI Design | QA | React | Angular | TypeScript

I am studying Systems Analysis and Development at Facens, with an expected graduation date of July 2027. I have professional experience in interface design and manual software testing, including creating prototypes in Figma and collaborating with Front-End teams. I develop web projects using HTML, CSS, JavaScript, TypeScript, React, Next.js, and Angular. I am seeking internship or junior-level opportunities in Front-End Development.

EDUCATION

Facens University Center

Associate Degree in Systems Analysis and Development | Expected graduation: July 2027

PROFESSIONAL EXPERIENCE

EpiOusion | Jul 2026 – Oct 2026
Interface Design and QA Intern

- Designed interfaces for websites and mobile applications in Figma, considering usability and visual organization.
- Collaborated with the Front-End team to align and review interfaces.
- Performed manual testing on websites and applications to validate features and identify inconsistencies.
- Used Figma and Trello for prototyping, task organization, and progress tracking.

Teleperformance – Remote | Nov 2025 – May 2026
Expert I – Technical Support

- Provided remote technical support, conducting tests and diagnosing connectivity issues.
- Used Citrix and internal systems to assist users, log support tickets, and track their progress.
- Guided users through problem resolution using clear communication and structured troubleshooting.

SX Negócios – Sorocaba, SP | Feb 2024 – Feb 2025
Banking Analyst

- Reviewed disputes and potential banking fraud, investigating patterns and inconsistencies.
- Consulted systems and information related to cards, accounts, and loans to support case analysis.
- Communicated findings and guidance to customers clearly and concisely.

PROJECTS

AutoStore AI – Hackathon | 2026

- Developed a vehicle catalog and comparison web application using Next.js, React, TypeScript, Tailwind CSS, and PostgreSQL.
- Implemented filters, an admin dashboard, and an AI assistant integrated with the Gemini API.

Personal Portfolio | 2026

- Developed a responsive portfolio using Angular and TypeScript, featuring light/dark mode, animations, and sections for projects and professional experience.

Ateliê da Lina | 2026

- Created a responsive landing page using HTML5 and CSS3, including Flexbox, Grid, Media Queries, and smooth scrolling.
